musicscapes
for prayer & worship

The Resurrection – a cornerstone of the Christian faith. The hope for all who believe on Jesus Christ. The Resurrection of Christ and the hope we have in Him – to be with Him – to share the glories of heaven with Him.

Intimacy with God creates an inner beauty that can only be felt by someone who has a close and intimate walk with the Saviour. The musicians and singers on this recording are worship leaders whose goal is to bring those who are listening or singing along into the presence of God that they may worship Him in spirit and truth.

Each person who comes to faith in Christ is a **Prodigal** – someone who has embraced the open arms of the Saviour who is reaching out for all who will come.

The musicians and singers on this recording are worship leaders whose goal is to bring you, as you listen or sing along, into the presence of God, that with a thankful heart you may worship Him in spirit and truth.
