3-2-1 Hypersonic – Praise and Worship in a busy upbeat world

The music on this album is not for the end of the day when you are winding down – **this is HIGH ENERGY praise at 140 bpm (beats per minute)**. This is praise that helps get you going in the morning or refreshes you after a long day at work. Great songs of praise recorded especially for the busy person.

Review

Wow what an album! – From the first track through to the very end, you can't help but join in, sing along and enjoy the punchy and at time 'rocked out' versions of great worship songs.

This album is high energy and yet worshipful at the same time. Some may want to use this as a background for exercising – because at 140 beats per minute, this album is not designed for those quiet peaceful and restful times – which are very important and needful to us. This album is for your worship in the midst of a busy schedule or lifestyle.

Turn It Up Loud And Enjoy...
