

Hymns & Choruses

BLENDED IN WORSHIP

A New Series from Whole World Media Group

Hymns, which have been called
'theology set to music'
blended with today's choruses
— the **best** of the old and the new.

Hymns & Choruses: seamlessly blends well-loved hymns and popular choruses, sometimes running two melodies at the same time, sometimes using a chorus of a modern song to reflect on the words of a classic hymn. It is a way to literally hear the connections between great hymns and powerful songs, both in words and music.

Vision

Sometimes while singing the choruses of today I miss the beauty and majesty of the hymns. The hymns have been called **'theology set to music'**. Today's choruses are vibrant and alive with energy and expressions of faith. By weaving the old and the new together in one song both the hymns and the choruses are given a new life and a fresh perspective of understanding in the richness of each.

We invite you to experience the beauty and timelessness of this recording, to sing along, to worship and be renewed in Christ's love and joy.

— Jeff McKenzie, Whole World Media Group
