THE DIRECTION

In the CD Booklet – (it will be an extra length booklet – probably stapled) – each worship Leader has a page for a photo, bio and discography. All The song lyrics are printed as well.

The above two items are important as this is not just another collection of praise and worship songs but it is the heart, vision and passion of these worship leaders.

OVERVIEW

Praise and worship is the universal language of worship for Christians from all parts of the world – united together expressing praise and honor to the God who redeems us.

Many Christians in other parts of the world have different struggles and hardships. They are at times dealing with governments that discourage the practice of their faith, or war, poverty and countless other hardships. In many of these situations Christians, who are writing and singing these songs, are stripped of everything except for a heart praising God. Sometimes this is all people have – but for God that is more than enough.

Worship music as it is known today is a worldwide phenomenon that has its roots in the 1960's in New Zealand. In 1963 David and Dale Garratt pulled back from singing at youth conventions and meetings for a time of waiting upon the Lord. In 1968 they recorded a new album of fresh new songs - Scripture put to song. This is what many recognize at the birth of the modern praise and worship movement. Scripture In Song became the name under which David and Dale released their music. Many of their songs became standards that are sung in churches around the world, songs such as; Be Exalted O God, This Is The Day, Blessed Be The Lord God Almighty plus many more well loved choruses.

Praise and worship music grew around the world. Companies such as Maranatha Music, Vineyard Music, Kingsway Music and Integrity Music responded to the growing need to provide the Church worldwide with music that brings the listener, and the Church, into a time of worship

This album seeks to capture worship songs from around the world and bring them to you, that they may inspire you, encourage you and be used by you to worship God. That Christians everywhere can relate to these songs and join in a unified voice of praise.
